The form must be completed BEFORE the student misses school, so contact the principal or secretary if you think your child will need to receive homebound services.

MEALS FOR STUDENTS WITH FOOD ALLERGIES AND/OR SPECIAL DIETARY NEEDS

The Food & Nutrition Services department has a policy of providing modified menus for students who have physical or mental disabilities or special dietary needs and are unable to consume the regular lunch or breakfast menu items. The policy is in accordance with a federal mandate to include all students in the school nutrition programs and is in accordance with policy guidelines outline in FNS Instruction 783-2, Revision 2, *Meal Substitutions for Medical or Other Special Dietary Reasons*. The Food & Nutrition Services Department should be informed of any student who is unable to consume the meals normally served at the school in which they are enrolled.

Program regulations provide for the substitution of food items based on child-specific medical guidance. The regulations do not provide for the banning of selected foods for all students. The district believes that banning foods would be counter-productive and not in the best interest of all students at a specific school site. A concerted effort will be made to meet the nutritional needs and/or disability limitations of each student. Accordingly the district has outlined the responsibilities for parents, school sites and Food & Nutrition Services as follows:

Parent responsibilities:

1. Notify the school of any food allergy, disability or special dietary need.
2. Provide medical certification approved by a recognized medical authority (RMA) authorized to practice within the State of Kentucky. Utilize the **EATING AND FEEDING EVALUATION:**

CHILDREN WITH SPECIAL NEEDS AND INFORMATION CARD. To request a copy of the Information Card contact: Rachel Miller, Food Service Director at (606) 436-3911.

3. Update the medical certification on as needed.
4. Participate in any meetings or discussions regarding the student's meal plan.
5. Notify the school of any changes relating to the food allergy or special dietary need.

School Site Responsibilities:

1. Identify children requiring diet modifications. This will be accomplished primarily through registration materials and parental contact.
2. The school Nurse or Health Services Assistant will be notified and begin the process for the implementation of an Individual Health Services Plan (IHSP).
3. Request medical certification from parent or guardian. Utilize the **EATING AND FEEDING EVALUATION: CHILDREN WITH SPECIAL NEEDS AND INFORMATION CARD.**
4. Send the medical certification to Food & Nutrition Services.
5. Additional responsibilities may include educational awareness for staff and students related to field trips, classroom parties, allergy alert identification and intervention.
6. Communicate plan requirements to all potential participants.
7. Monitor and update the plan as needed.

Food & Nutrition Services Responsibilities:

1. Provide food item substitutions for students based on medical need supported by a medical certification signed by a recognized medical authority. Menus will not be modified based on preference.
2. Provide training to cafeteria personnel on how to react to allergies and how to modify menus.
3. Communicate with parents, staff and medical authorities regarding diet modifications.
4. Maintain Special Diet information on each student and update annually.

EMERGENCY EVENT PROCEDURE

In the event of an emergency at school which requires the presence of fire, emergency medical technicians, or the police, we ask that you read and follow the procedures listed below. If you hear of an event at the school, such as snow dismissal, fire or other emergencies:

1. Tune immediately to the local radio and TV stations for instructions. They will be notified as soon as possible.
2. **DO NOT CALL** the school. We need to keep phone lines open for emergency personnel, the administration and parents who are needed at the school. Your child will be in good hands.
3. **DO NOT COME** to the school unless you are called or hear an announcement on the radio or TV to do so.
4. When you do hear the announcement, please **LISTEN CAREFULLY** as it may be necessary to close some streets approaching the school for emergency vehicles.
5. Petrey Memorial Baptist Church, 141 Alto Street will be the location for students to be held until they are picked up in the event that we must evacuate the school.
6. **STUDENTS WHO RIDE BUSES** should make arrangements with parents **NOW** as to what they are to do if an emergency arises. They need to be sure where to go if you work and no one is at home to receive them. Students who live within **WALKING DISTANCE** should

make similar arrangements. This will reduce the number of phone calls to be made and the traffic at the school.

Please remember that our school has and practices efficient evacuation and emergency procedures regularly. Teachers are with the students and account for all students each time these procedures are practiced. We appreciate your cooperation and understanding for the importance and necessity of these procedures.

MEDICAL REQUIREMENTS

All students entering the Hazard City Schools for the first time from out of state must have a physical examination and eye examination. A state certificate of immunizations must be on record at the school and must be kept up to date. A birth certificate is required for all students who are entering school for the first time in Kentucky, regardless of the grade they are entering.

New physical examinations are required for all students entering the sixth grade. Students entering the sixth grade are also required to have an updated immunization certificate. A Tdap vaccine is required if the student is age 11 or older. Please have all examinations completed before the beginning of the school year so that students will not have to miss school for this purpose.

Any student participating in school athletics must have a yearly physical exam on an athletic form prior to participation in any conditioning, practice or game. It is recommended that these physicals be done as soon as possible to avoid delaying your student's participation.

During the school year, students may receive vision, hearing, scoliosis, and behavior disorder screening. These will be conducted by certified personnel and parents will be notified if necessary.

BUS REGULATIONS

In order to insure the safety and welfare of all students transported by school buses, orderly conduct must be observed at all times. We need your cooperation to maintain such conduct. Pupils should respect and obey those in authority. We hope it will never be necessary to deprive a student of bus riding privileges. **Students will have to wear cloth face coverings on the bus. Before loading the buses in the morning, all students will have temperature screening.** Glass containers should never be carried on the buses. Food and drinks are not to be taken on the buses. Students must ride buses to which they are assigned. A note from the parent is necessary before a student may ride a different bus or get off the bus at a different stop.

1. The driver is in full charge of the bus and pupils. Pupils shall obey the driver cheerfully and promptly.
2. Pupils shall occupy the space designated for them by the driver.

7. Pupils are not to mar or otherwise deface the bus.
8. Pupils are not allowed to carry a knife or any sharp instrument on the bus.

15. Pupils are to respect persons whom they pass on their routes.
16. Pupils are to walk on the left side of the road, facing traffic.
17. Pupils who must cross the road after getting off the bus shall pass in front of the bus and not behind it.

Serious misconduct on the bus which hinders the safety of students or operation of the bus may cause a student to be prohibited from riding the bus. Examples of misconduct are: damage to bus property, fighting, use of tobacco, profanity.

The principal is authorized to withhold bus-riding privileges up to a maximum of ten (10) school days per occurrence in the case of habitual or serious conduct violations. The Principal shall notify the parents in cases where bus riding privileges have been withheld. The Superintendent or designee may withhold bus riding privileges up to the remainder of the school year.

PARENT-TEACHER CONFERENCES

Please call the school office at 436-4421 to request a teacher conference. The secretary will take your name and phone number and have a teacher return your call to make the appointment. Conferences will be scheduled during teacher planning periods or after school. Stop by the office and state the purpose of your visit when you arrive for your conference. Conferences must be scheduled before visiting the teacher and must be conducted in a dignified, civilized manner.

Contact the school secretary to leave a Voice Message for the teacher with whom you wish to have a conference or email the teacher. That teacher will return your call or email to setup the conference.

We refer you to state law on this matter:

KRS 161.190 Abuse of Teacher Prohibition - Whenever a teacher or school administrator is functioning in his capacity as an employee of a board of education of a public school system, it shall be unlawful for any person to direct speech or conduct toward the teacher or school administrator when such person knows or should know that the speech or conduct will disrupt or interfere with normal school activities or will nullify or undermine the good order and discipline of the school.

Promotion/Retention of Students

- A. **Promotion** - Students shall progress from one grade level to another when they have successfully acquired the skills associated with the lower level. However, achievement of these skills alone shall not be the sole criteria for promoting or retaining a student. The

professional judgment of the student's teacher as to the ability of the student to successfully meet the requirements of the next higher level shall be the final deciding factor in promoting a student.

- B. **Retention** – (Board Policy of May, 2003) In order for a student to be retained in their current grade level, the following criteria must be met:

RETENTION (GRADE 4 THROUGH MIDDLE SCHOOL)

1. Retention may occur if the student fails to:
 - a. Make satisfactory progress in the class/subjects, based on such criteria as recorded grades/scores on tests, homework, projects, and class participation points.
2. Progress satisfactorily on the academic expectations.
3. Parent(s) have been notified of the possibility of the student's retention by mid-year or as soon after third mid-year report as the teacher perceives the possibility of retention.
4. The notification has been sent by letter, signed by the teacher and the Principal. The letter shall describe the problem and request the parent(s) to meet with the Principal and the teacher.
5. Any student in grade eight that is repeating for the second time is not eligible for any academic awards, i.e. valedictorian, math award, science award, etc.

EXTENDED SCHOOL SERVICES

Referral Process - All Programs:

Students may be referred to Extended School Services by themselves, their parents, or their teachers. Referrals are made on the appropriate form to the school coordinator, who determines the placement based on the priorities shown. Students and parents may use the form attached to make referrals to the school tutoring program. Fill out the form and send to the home room teacher so that it can be sent to the tutoring coordinator.

The appeal process for selection or non-selection of students for ESS consists of a determination of placement by the school coordinator based on the criteria listed below for each session. The line of appeal of decisions of the school coordinator goes to the school principal and then the school council, who will reach a final decision.

After School Program:

The Hazard Independent Schools conducts a school tutoring program during the regular school term to help students who need more time to succeed according to the following priorities:

1. Students who are in danger of being retained.
2. Students who are in danger of failing one or more subjects.
3. Students who have a history of low-performance or who have shown the need for extra time to be successful in school.
4. Students who may need short-term help to master skills or topics.

INSURANCE

The Hazard Independent School District has a student accident insurance policy. This policy covers accidents that occur during the school day and while the student is participating in extra-curricular school activities. The insurance provides secondary coverage (pays remaining deductible after personal insurance has paid). It is the parent's responsibility to obtain a claim form from the school secretary. **The claim form must be submitted to Central Office within 90 days of accident. If this is not completed within the time line, PARENTS ARE RESPONSIBLE FOR ANY COST RELATING TO THE ACCIDENT.**

CERT

Early in 2013, ePrep developed CERT, an online assessment product that provides administrators, teachers, parents, and students with the information they need to maximize career and college opportunities for students. In order to accomplish its goal of providing assessment reports that are both incredibly detailed and easy to understand, ePrep sought the guidance of principals and teachers. In the summer of 2013, ePrep released CERT, the College Equipped Readiness Tool. CERT allows schools to assess students through either online or offline test administrations. CERT is one method that our school and grade level teachers will assess student progress toward Proficiency grades (6th-8th)

- **All CERT tests are age-appropriate and aligned with the Career and College Readiness Standards**
- **All CERT tests cover the content areas included in the ACT: English, Mathematics, Reading, and Science**
- **All CERT tests match the format (i.e., # of questions, question types, difficulty level, timing, etc.) of the current ACT, PreACT, and EXPLORE tests**

CERT provides valuable data to EVERY stakeholder. Students, Teachers, Principals, and Superintendents can, as appropriate, access reports on:

- **Individual and group composite performance**
- **Individual and group performance by subject area (English, Mathematics, Reading, or Science)**
- **Individual and group performance on three levels of the Career and College Readiness Standards**
- **Individual and group performance on subject-specific content that is organized using language that is generally familiar to students and teachers**

MAP

NWEA is a research-based, not-for-profit organization that supports students and educators worldwide by creating assessment solutions that precisely measure growth and proficiency—and provide insights to help tailor instruction. MAP is a student achievement tool used in our School (Grade 5) to help improve instruction and get students on a path toward Proficiency.

MAP Growth is a computer adaptive test created by NWEA that kids take two to three times per school year. The results provide teachers with information to help them deliver appropriate content for each student and determine each student's academic growth over time. MAP Growth is used to measure a student's performance level at different times of the school year and compute their academic growth.

ILP

The Individual Learning Plans or ILPs are for Kentucky's 6th grade-12th grade students are changing how students prepare themselves for their future. Throughout the year, each 6th through 8th grade HMS student will work with teachers, guidance counselor, community leaders and the principal on career choices, matchmaking skills, and high school/college courses. Each year students are required to complete different sections of their ILP which are required to be reviewed by teachers, guidance counselor, or principal. These are Individual Learning Plans and students are encouraged to access and use their ILP's during school and at home. ILP's are a great resource to build resumes for colleges, careers, and for scholarship opportunities. Parents are encouraged to get access to their student's ILP and students are encouraged to share their ILP with their parents.

HIGH SCHOOL CREDIT

HMS will offer classes at the middle school level for High School Credit for our 8th grade students. This gives students the ability and flexibility in high school to take electives that they find interesting and the opportunity to take college level courses (Duel-Credit) at some point in High School.

- **Students must earn an A or B in these courses in order to receive high school credit.**
- **Students who attend the High School may be removed from the class because of attendance, behavior, problems traveling on the bus or for any reason that comes from the instructor or Principal of HHS.**

HMS Workplace Ethics In-Progress Certification Levels & Requirements

Hazard Independent School District is committed to preparing students to enter the workforce. Starting this school year, students may participate in the Work Ethics Certification Program. Middle school students who successfully earn this recognition will receive an In-Progress Certificate at 8th grade honors night.

EXPULSION OF EXCEPTIONAL STUDENTS

The Admission and Release Committee (ARC) shall convene prior to the expulsion of any special education student. This committee shall consist of the principal or designee, parent, special educator, and possible support persons. Parents shall be informed of their rights. Parents do have the right to request a hearing. If parents request a hearing and the hearing is granted, the student shall remain in his present program until a decision is reached. The ARC shall consider the following four items:

1. Insure that the IEP and placement are appropriate and are being fully implemented.
2. Consider the student's handicapping condition and determine whether it is the basis of the discipline problem.
3. If the ARC concludes that the placement is appropriate and in the process of implementation, and that the handicapping condition is not the basis of the student's inappropriate behavior, then the ARC shall give this determination to the Superintendent and the Board of Education. The Committee is limited to making the above written determination. It is not the role of the ARC to recommend expulsion.
4. If the student's handicapping condition is found to be the basis of the discipline problem, then the ARC shall so state in its written determination. In this instance, expulsion would be inappropriate, and the ARC would need to consider changes in the student's program that might result in more appropriate behavior.

NOTE: The above only applies to expulsion. Short term exclusions, such as suspension, shall apply the same to handicapped as to other students.

Notification of FERPA Rights

The Family Educational Rights and Privacy Act (FERPA) affords parents and "eligible students" (students over 18 years of age or students who are attending a postsecondary institution) certain rights with respect to the student's education records. They are:

- 1) ***The right to inspect and review the student's education records within forty-five (45) days of the day the District receives a request for access.***

Parents or eligible students should submit to the school Principal/designee a written request that identifies the record(s) they wish to inspect. The Principal will make arrangements for access and notify the parent or eligible student of the time and place where the record(s) may be inspected.

- 2) ***The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or in violation of the student's privacy or other rights.***

Parents or eligible students may ask the District to amend a record that they believe is inaccurate, misleading, or in violation of privacy or other rights. They should write the school Principal, clearly identify the part of the record they want changed, and specify why it is inaccurate, misleading, or in violation of their privacy or other rights.

If the District decides not to amend the record as requested by the parent or eligible student, the District will notify the parent or eligible student of the decision and advise him/her of the right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

- 3) ***The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.***

Exceptions that permit disclosure without consent include:

- a. Disclosure to school officials with legitimate educational interests. A “school official” is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school Board; a person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his/her professional responsibility to the District.
 - b. Upon request, disclosure of education records without parent/eligible student notice or consent to officials of another school district or post-secondary institution in which a student seeks or intends to enroll or is already enrolled or to other entities authorized by law so long as the disclosure is for purposes related to the student’s enrollment or transfer.
 - c. Disclosure of information to those whose knowledge of such information is necessary to respond to an actual, impending, or imminent articulable and significant health/safety threat.
- 4) ***The right to notify the District in writing to withhold information the Board has designated as directory information as listed in the annual directory information notice the District provides to parents/eligible students.***

To exercise this right, parents/eligible students shall notify the District by the deadline designated by the District.
- 5) ***The right to prohibit the disclosure of personally identifiable information concerning the student to recruiting representatives of the U. S. Armed Forces and its service academies, the Kentucky Air National Guard, and the Kentucky Army National Guard.***

Unless the parent or secondary school student requests in writing that the District not release information, the student’s name, address, and telephone number (if listed) shall be released to Armed Forces recruiters upon their request.
- 6) ***The right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA.*** The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-8520

Written policies and procedures have been developed which describe districts' requirements regarding the confidentiality of personally identifiable information. There are copies in the principal's office of each school, and at the board of education office. Copies describing these policies and procedures are available for review, and may be obtained by contacting:

RELEASE OF STUDENTS

At any time students are dismissed from school, they shall be released according to the written instructions provided by the custodial parent/guardian. The instructions, which shall be requested at the time the student registers/enrolls for the school year, shall include the student's regular mode of transportation at the end of the day and a list of persons, in addition to the custodial parent/guardian, who are twenty-one (21) or older and are authorized to pick up the child from school. Any deviation from the authorized release process must be approved by the Principal/designee prior to the student departing school in another manner.

It shall be the responsibility of the custodial parent/guardian to notify the school in writing if release instructions are to be revised. If written instructions are not provided to the school, the student shall only be released to ride home on the assigned bus or with the custodial parent/guardian.

Any student who leaves the school grounds at any time without proper authorization shall be subject to appropriate disciplinary action.

All releases shall be counted as absences and recorded on permanent records.

If the student is to be picked up early, s/he shall first notify and secure permission from the Principal or Assistant Principal. The custodial parent/guardian or designee [twenty-one (21) or older] shall report to the Principal's office and sign for the student's release.

Each school shall maintain a daily entry and exit log of students signing in late or signing out early and shall require proof of identification from individuals (visual identification by an employee, driver's license, picture identification, etc.) to assure that they are authorized to pick up the student.

Those students who are not on record as being under the care or control of a parent/guardian may sign for their own dismissal.

EXCEPTIONS

A student may be released to a person with lawful authority to take custody of the student, e.g., a police officer with a warrant or the person authorized by the Cabinet for Health and Family Services when the student is committed to the Cabinet by a court order. In such case, the student's parent shall be notified at the earliest opportunity.

In addition, the Board authorizes emergency release of students for illness or other bona fide reasons, as determined by the Principal.

Release of Students and Student Information to Divorced, Separated, or Single Parents

The Board shall release the student to either parent, guardian, or legal custodian unless the school has been informed and provided with evidence that there is a state law or court order governing such matters as divorce, separation or custody, or a legally binding document which provides instruction to the contrary.

 - b. Violates confidentiality or privacy rights of another individual. This includes but is not limited to, taking photographs, video, or audio recordings of others without permission of the principal/designee and the affected individual(s). An exemption may be made for events considered in the public arena (e.g. sporting events, academic competitions, or performances for which the general public is admitted) where the activity does not materially disrupt the event, prevent others from observing the event or otherwise violate legal rights. School social events for students, activities sponsored by student clubs, and activity during the school day that are not open to the public are not considered to be in the public arena.
 - c. Is profane, indecent, or obscene;
 - d. Constitutes or promotes illegal activity or activity in violation of school rules; or

2. Unless an emergency situation exists that involves imminent physical danger or a certified employee authorizes the student to do otherwise, devices shall be turned on and operated only before and after the regular school day and during the student's lunch break.
3. When students violate prohibitions of this policy, they shall be subject to disciplinary action, including losing the privilege of bringing the device onto school property and being reported to their parent/guardian. A violation also may result in a report being made to law enforcement. In addition, an administrator may confiscate the device, which shall only be returned to the student's parent/guardian.
4. Students are responsible for keeping up with devices they bring to school. The District shall not be responsible for loss, theft, or destruction of devices brought onto school property.
5. Students shall comply with any additional rules developed by the school concerning appropriate use of telecommunication or other electronic devices.

Students shall not utilize a telecommunication or similar electronic device in a manner that would violate the District's Acceptable Use Policy or procedures or its Code of Acceptable Behavior and Discipline.

TITLE 1

Definition: Title I is a federally funded program designed to help disadvantaged children reach high academic standards. A school with at least 40% low-income is eligible to plan and implement a schoolwide program (SWP). A schoolwide program must upgrade the entire educational program in the school in order to raise academic achievement for all students. A schoolwide program:

Title I, Part A is a federally funded initiative designed to provide supplemental instruction for those students who demonstrate need in targeted content areas. Schools identify children most at risk of failing to meet academic expectations. Federal funding is based upon the percent of the school population that qualifies for free or reduced meals.

Title I, Part C ("Migrant Education"): The Migrant Education Program provides advocacy and educational reinforcement for children who move from state to state or county to county with parents or guardians seeking seasonal and/or temporary employment in agricultural activities. Programs operate in school districts which identify an eligible population and, thereby, generate funds. Parent advisory committees form a significant component of each program. The program can provide support services in areas such as health, guidance and counseling, clothing and food as well as instructional support and tutoring. Both after school and summer programs are used to reinforce educational deficiencies which have been caused by frequent moves.

Title I, Part D, Prevention & Intervention of Children & Youth Who Are Neglected, Delinquents or At-risk: This program provides financial assistance to educational programs for youth in state-operated institutions or community day programs. The program also provides financial assistance to support district programs involving collaboration with locally operated correctional facilities.

For example, a locally adopted baseball season may not have more than four weeks of preseason practices, eight weeks of games, 36 total contests, 2 total scrimmages and three weeks post season play. ACCEPTABLE ACADEMIC PROGRESS

To participate in extracurricular activities, students must be making acceptable academic progress. Any student who fails more than one (1) class is not making acceptable academic progress and shall be declared ineligible to participate in all extracurricular activities. **Any student that participates in Extra Curricular activities will have to be present 75% of school day to be eligible to practice or participate in any form.**

ELIGIBILITY

Eligibility shall be determined with the first semester grade report ending in December and will be effective with the beginning of the spring semester in January. Interim grades are reported every three (3) weeks at the elementary and middle schools and every four and one-half (4 ½) weeks at the high school.

POSITIVE BEHAVIORAL INTERVENTION SUPPORT (PBIS)

This new approach to changing students' behavior has been adopted by Hazard Middle School. Our teachers and staff have undergone extensive training and have developed new ways to emphasize rewarding students for positive behavior rather than focusing on punishing inappropriate behavior. This proactive approach to changing behavior is having great affects in schools throughout Kentucky. We hope that through this new approach, we can show students that good behavior leads to a rewarding education achieved through a pleasant learning atmosphere and in easy to learn surroundings.

We do; however, recognize that there may be times that discipline is necessary. For those times the following code of conduct will be followed.

CODE OF STUDENT CONDUCT

RATIONALE AND PHILOSOPHY

Both teachers and parents are responsible to provide a safe, stimulating, and cooperative learning climate so that each student may develop his/her full potential; and the students are responsible to maintain that climate. Hazard Middle School's Code of Student Conduct shall have as its guiding principle its responsibility to create and maintain a school environment where learning can take place because disruptions are minimal. It recognizes its task for encouraging students in a democratic society. Student individual rights are preserved by the protection and preservation of the rights of all people. Students have the right to an education and responsibilities to behave in such manner as to not interfere or hinder the education of others. To accomplish these goals within the school, school personnel, parents, students, and the community must cooperatively plan, work, and assess ways to promote and maintain self-discipline.

Hazard Middle School believes that discipline is a school-student-parent/guardian community responsibility; the discipline code is structured so that each participant is expected to contribute in maintaining order and safety through a disciplined student population.

Bullying/Hazing

ACTIONS NOT TOLERATED

Hazing, bullying, menacing, or abuse of students or staff members will not be tolerated.¹ Any student or employee who engages in an act that injures, degrades, or disgraces another student or staff member, disrupts the educational process, or interferes with a student's opportunity to obtain an education shall be subject to appropriate disciplinary action.

These provisions shall not be interpreted to prohibit civil exchange of opinions or debate protected under the state or federal constitutions where the opinion expressed does not otherwise materially or substantially disrupt the education process or intrude upon the rights of others.

Students who violate this policy shall be subject to appropriate disciplinary action.

This policy extends to any/all student language or behavior including, but not limited to, the use of electronic or online methods.

BULLYING DEFINED

BULLYING MEANS ANY UNWANTED VERBAL, PHYSICAL, OR SOCIAL BEHAVIOR AMONG STUDENTS THAT INVOLVES A REAL OR PERCEIVED POWER IMBALANCE AND IS REPEATED OR HAS THE POTENTIAL TO BE REPEATED:

1. THAT OCCURS ON SCHOOL PREMISES, ON SCHOOL-SPONSORED TRANSPORTATION, OR AT A SCHOOL-SPONSORED EVENT: OR
2. THAT DISRUPTS THE EDUCATION PROCESS.

THIS DEFINITION SHALL NOT BE INTERPRETED TO PROHIBIT CIVIL EXCHANGE OF OPINIONS OR DEBATE OR CULTURAL PRACTICES PROTECTED UNDER THE STATE OR FEDERAL CONSTITUTION WHERE THE OPINION EXPRESSED DOES NOT OTHERWISE MATERIALLY OR SUBSTANTIALLY DISRUPT THE EDUCATION PROCESS.

Rude = Inadvertently saying or doing something that hurts someone else.
Mean = Purposefully saying or doing something to hurt someone once (or maybe twice).

***Bullying = Intentionally aggressive behavior, repeated over time, that involves an imbalance of power.**

Forms of Bullying:

* **Physical aggression** was once the gold standard of bullying— the “sticks and stones” that made adults in charge stand up and take notice. This kind of bullying includes hitting, punching, kicking, spitting, tripping, hair pulling, slamming a child into a locker and a range of other behaviors that involve physical aggression.

* **Verbal aggression** is what our parents used to advise us to “just ignore.” We now know that despite the old adage, words and threats can, indeed, hurt and can even cause profound, lasting harm.

* **Relational aggression** is a form of bullying in which kids use their friendship—or the threat of taking their friendship away—to hurt someone. Social exclusion, shunning, hazing, and rumor spreading are all forms of this pervasive type of bullying that can be especially beguiling and crushing to kids.

* **Cyberbullying** is a specific form of bullying that involves technology. According to Hinduja and Patchin of the [Cyberbullying Research Center](#), it is the “willful and repeated harm inflicted through the use of computers, cell phones, and other electronic devices.” Notably, the likelihood of repeated harm is especially high with cyberbullying because electronic messages can be accessed by multiple parties, resulting in repeated exposure and repeated harm.

REPORTS

As provided in the District Code of Acceptable Behavior and Discipline, students that believe they are victims of bullying/hazing shall be provided with a process to enable them to report such incidents to District personnel for appropriate action.

Employees are expected to take reasonable and prudent action in situations involving student welfare and safety, including following District policy requirements for intervening and reporting to the Principal or to their immediate supervisor those situations that threaten, harass, or endanger the safety of students, other staff members, or visitors to the school or District. Such instances shall include, but are not limited to, bullying or hazing of students and harassment/discrimination of staff, students or visitors by any party.

Students who believe they have been a victim of bullying or who have observed other students being bullied shall, as soon as reasonably practicable, report it.

The District Code shall specify to whom reports of alleged instances of bullying or hazing shall be made. In serious instances of peer-to-peer bullying/hazing/harassment, employees must report to the alleged victim’s Principal, as directed by Board policy 09.42811. The Principal/designee shall investigate and address alleged incidents of such misbehavior.

In certain cases, employees must do the following:

1. Report bullying and hazing to appropriate law enforcement authorities as required by policy 09.2211; and
2. Investigate and complete documentation as required by policy 09.42811 covering federally protected areas.

OTHER CLAIMS

When a complaint is received that does not appear to be covered by this policy, administrators shall review other policies that may govern the allegations, including but not limited to, 09.426 and/or 09.42811. Harassment/discrimination allegations shall be governed by Policy 09.42811.

STUDENT DISCIPLINE AND PUNISHMENT

A. GENERALLY. Behavior that detracts from a student's ability to profit from instruction or that infringes upon the rights of others warrants disciplinary action. The intent of disciplinary actions should be to bring about a positive change in the student's behavior.

Professional judgment, devoid of anger or negative emotions on the part of the staff members, shall be used when determining the appropriate disciplinary action to be taken. In general, the concept of fitting the punishment to the seriousness of the violation of the rules shall apply at all levels.

The student's rights to due process procedures must be respected, especially in instances when possible suspension, expulsion, or removal of the student is involved.

CORPORAL PUNISHMENT. KRS 156.160 gives the STATE Board of Elementary and Secondary Education the authority to promulgate regulations deemed necessary or advisable for the protection of the physical welfare and safety of the pupils, and to set standards for the local school districts in programs, services, and operation performance, with the latter tied to outcomes set forth in KRS 158.6451.

CODE OF STUDENT CONDUCT

The following code sets forth school rules prohibiting or requiring certain student conduct while the student is on school premises, going to and from school, or under the supervision of the school as school sponsored events or activities.

Students may be disciplined for violating any of these rules or any school rules in the Code. Punishment may range from simple reprimand or warning to a suspension of up to 10 days imposed by the Principal, or longer suspension or expulsion imposed by the School Board. The severity of the penalty will correspond to the gravity of the offense.

Every student shall be accorded a minimal amount of due process before judgments and penalties are consummated.

CLASSROOM DISCIPLINE

Teachers shall be responsible for maintaining a classroom environment conducive to learning. They shall enforce these policies. They may establish rules for student conduct within their classroom provided the rules are not in violation of these policies.

DISCIPLINE COMMITTEE POLICY ON CORPORAL PUNISHMENT

CORPORAL PUNISHMENT is a punishment used to as a means of developing self-direction by students in matters of personal conduct. However, when other efforts have not produced desired results, reasonable corporal punishment may be administered, in private, by the Principal or Teacher in the presence of two (2) certified employees

Corporal punishment will be administered only as a means to further reasonable discipline in the school, class, or other school related function. Corporal punishment shall not be administered in anger. Official witnesses of corporal punishment will be notified in advance of the administering of punishment.

All paddles used in administering corporal punishment will be approved by the principal at the beginning of each school year.

A conduct report shall be completed **in its entirety** and submitted to the Principal's office when the student is sent to the office. This report will be filed in the student's discipline folder.

The parent or guardian of the student shall be notified within forty-eight (48) hours by telephone or by mail that corporal punishment has been administered. Prior notification of the parent that corporal punishment will be administered is not required.

Parents or guardians who object to corporal punishment of their child must send a written and signed notification to the school office to be kept on file in the principal's office. Students who may not be paddled will be assigned In School Suspension as the alternative.

DETENTION - Students may be detained after school as a disciplinary measure. The parents of students assigned detention shall be advised in advance of the detention by means of a detention notice which has been completed by a teacher or other school personnel. Arrangements for the student's transportation are the responsibility of the student and the parent or guardian. They must be made before the student reports to school on the day of the detention. Failure to report for detention will result in further disciplinary action.

RESTRICTION OF ACTIVITIES - A student may be restricted or excluded from a school extracurricular activity as a means of discipline.

(XXII Cont.) * Terrostatic Threatening*****

Dear Parent/Guardian,

Our most important function in Hazard Independent School District is to provide the safest learning environment possible for all of our students and school staff members. Unfortunately, in recent years, Kentucky's P-12 schools have experienced an escalation of terroristic threats being made by students with intent to do harm to either other students or school staff members. Plainly stated, these are threats being made to shoot people or detonate bombs with lethal intent. In fact, between January 23 and April 30th of last school year (2018), Kentucky schools experienced (294) terroristic threats that caused widespread fear throughout the school's community and resulted in total disruption to the educational process. In many of those cases, school officials and law enforcement officials were forced to close schools to investigate the threats that had been made. In other cases, school attendance plummeted for days after the threat was made. Many school leaders have said that the emotional, instructional, and financial impacts of these acts are incalculable.

Terroristic Threatening in the second degree is defined in state law (KRS 508.078)

(1) A person is guilty of terroristic threatening in the second degree when, other than as provided in KRS 508.075, he or she intentionally:

b) Makes false statements by any means, including by electronic communication, for the purpose of:

- 1. Causing evacuation of a school building, school property, or school-sanctioned activity;**
- 2. Causing cancellation of school classes or school-sanctioned activity; or**
- 3. Creating fear of serious bodily harm among students, parents, or school personnel**

(For the complete text for KRS 508.078 please see the attached page.)

Such threats to our students and school staff are totally unacceptable and will not be tolerated. As a result, the purpose of this letter is to notify all parents and guardians that school district officials (in coordination with responding law enforcement agencies) will **pursue immediate legal charges for felony terroristic threatening in the second degree, to the absolute fullest extent of the law, against anyone who makes such threats, including students.** Moreover, we will advocate to our highest ability that the prosecution of these individuals be swift, and their punishment be severe. Our approach to eliminating terroristic threatening in our school and district is strong and unwavering, and as a result, it is imperative that you discuss this critically important matter with your student as soon as possible. School and law enforcement officials are determined to put a halt to these willful acts of terrorism being made toward our students. Please do your part to ensure that your student never becomes a party to such an offense by educating him/her on the seriousness of its consequences.

Together we can prevent this unnecessary, dangerous, and disruptive crime from victimizing our schools. I appreciate your partnership in keeping our school the safest place for your student to learn and grow.

If you have any questions or concerns, please contact me at your convenience.

Sincerely,

Kevin Combs, Principal of Hazard Middle School
